Summary for the Week of October 3: Class Schedule Project

Status Report:
        We did our first UML, ERD and Use Case. We are still trying to complete our design so that we can do our project easier. We will have weekly meetings so that we can have more planning done, so we can start our project as soon as possible.

Completed:

- UML
- ERD
- Use Case

To-Do:

- Test the server making sure everything is working
- Start working on WBS
- Estimating the cost and finish time

Issues/Comments:

- The initial design for the project may not be good enough. We have to change it along with the project developing.

Cost:
        $100
